- ❑ **14. The Strategic Prayer Initiative** / If you are not familiar with the efforts of the Strategic Prayer Initiative (SPI™), here is a short summary. Our primary mission is to use research, Scripture (Psalm 119:105), prayers for guidance (Matthew 21:22), experimentation, and many counselors (Proverbs 15:22) to help develop and refine prayer methodologies. Our focus is to refine approaches that are "undeniably effective" in moving large numbers of Christians to develop and/or maintain "good prayer lives" and to focus those prayers as one critical element of becoming more effective in fighting the spiritual battle. This battle is against sin, evil, injustice, and for the eternal souls of hundreds of millions of women and men throughout the world. **Please pray for the Lord to raise up more laborers, prayers, and financial resources for this endeavor.** (See early SPI Workshop Video for background information at www.SPIprayer.org)

Canada and the UK, have legal restrictions in place against such experimentation; however, the United States and China, are sites of the most disturbing recent experiments involving human-monkey chimeras and so-called "blastoids" or "model embryos". Five original assurances given to the public when the UK legalised such experimentation in 1990 were as follows: 1) No human embryo would be created by cloning; 2) No human embryo would be genetically modified; 3) No part-human, part-nonhuman embryo could be created; 4) The use of human embryos in assisted reproduction and in research would be regulated with the utmost care; 5) And, most famously, no experimentation on human embryos would be permitted after 14 days. - ❑ 27. **Important Legal** / "No Fault" Divorce Law - Introduced by the government, which would allow a person to divorce their spouse without having to give a reason, has been delayed until next year.
